WELCOME BACK

Welcome back to the start of the school year. We hope you were all able to enjoy some of the good weather over the summer period. Thank you for preparing your children well for the new academic year. Generally everyone has come back with a really positive attitude and have settled well into their new classes.

REMINDERS

Contact details

If you have changed your address, mobile number or email please let the office know. Also please ensure that we have emergency contact details for preferably two friends or relatives in case you are unavailable and we need to make urgent contact.

Drinking bottles

It is good to see that so many pupils have remembered to bring their water bottles into school with them, thank you. These can be refilled with water in school as needed; all classrooms have sinks with drinking water in them so there is always access to water.

Dates for the Diary

We will be sending out a list of dates next week for the coming academic year. These are the dates planned so far. We will as far as possible try to stick with these dates but unfortunately we cannot guarantee that we will always be able to go ahead with the planned events on the planned days as unforeseen things can occur.

ROALD DAHL DAY

Celebrate Roald Dahl day with us in school.

We would like to welcome parents, grandparents and carers to share a book with the children in class from 9am to 9.30am. It can be any book, not just Roald Dahl books.

Children can come into school dressed as a book character from one of Roald Dahl's books if they want to.

Any children who completed the summer library reading challenge, bring in your certificate, medal and/or wrist band for assembly on Thursday 13th September.

SUMMER HOLIDAY HOMEWORK

Thank you very much to everyone who has brought in the summer dojo challenge homework.

There are some really interesting things. Teachers are in the process of adding up and awarding the number of Dojo points that have been earned. Well done!

SCAVENGERS AND SETTLERS

On Wednesday morning Herons, Kingfishers and Swans took part in an exciting morning learning about what it was like to live in The Stone Age as the entry point for their new topic Scavengers and Settlers. Children took part in 4 different activities such as shelter building, learning about the importance of fire and what it was like to scavenge for your food. One of the activities included them communicating with each other using noises, grunting and actions as there was no spoken language in the Stone Age. The children proved they could deliver their messages without using spoken words and demonstrated how brilliantly they could grunt! Most children admitted that they wouldn't have wanted to live in the Stone Age and that they have much easier lives today.
