

# PARENT information

DEAR PARENT,

Dolce are your schools chosen meals provider and we are determined to offer you and your child an excellent service.

We offer exciting new menus each term which are cooked fresh from raw ingredients and allow parents and pupils to pre-order from home, on the move or in the classroom.

## PRE-ORDERING

We want you to know everything there is to know about our menus. That is why we use SchoolGrid, the award winning online pre-ordering system. Here you can see what's on offer across the whole term, including any special theme days which run throughout the academic year!

You can order flexibly, either day by day or up to a full term in advance. To help make an informed choice for your child, we provide the full ingredients list, recipe card and nutritional breakdown for each dish.

## Who are we?

Dolce is a family run schools catering provider with a passion for delivering good healthy food with the best customer care.

## LUNCHTIME

We aim to make lunchtime an enjoyable experience for every child. Using a touch screen, children select their names at the hot plate, displaying their meal choice to both the cook and child, along with any allergies or dietary requirements. Our system helps the cook get to know each child on a first name basis, making them feel welcome at the lunch counter.

## Free SCHOOL MEALS

Is your child entitled to Free School Meals? Head over to your local government website to find out more and apply. You could save yourself hundreds of pounds each year and your school will receive extra funding too!

Let us know what  
you think..

Rate the dish! We use a star rating system and monitor feedback each term to determine which dishes are most popular. So if your child is enjoying their school dinner, let us know. You can even 'Compliment the Cook'.

THE COOK:

**Compliments**

A year after the 9/11 attacks, why not make the country's day and ship them a quick assignment to bring a  
the New Yorker

Your work has had 75 comments so far. Ship the expert!

**Sample comments only please!** No off-color, obscene or and other harmful things should go to the  
New York University

The link will not be able to reply to your comments, and ask us to make and remove any parts of the  
New York University comments

The screenshot shows a mobile application interface for a food delivery or restaurant app. The main content area displays a list of food items, each with its name, an average rating represented by stars, and the number of reviews. The items are:

- Al Pasta Kebabi**: 3 stars
- Al Diy Breakfast**: 3 stars
- Bacon and Sweetcorn Pasta**: 4 stars, 1034 reviews
- Bacon and Sweetcorn Tagliatelle**: 3 stars
- Bacon Boiled/Floasted**: 4 stars, 200 reviews
- Bacon Olives**: 3 stars

On the right side, there is a vertical sidebar with category filters, each in a colored box:

- Meat Dishes** (Red)
- Fish Dishes** (Blue)
- Vegetarian Dishes** (Green)
- Accompaniments** (Orange)
- Desserts** (Purple)

At the bottom, there is a navigation bar with icons for Home, Search, Favorites, Cart, and Profile.
