

**Light and Dark**

**Sun**

The earth **rotates** giving us **day** and **night**.

**Moon**

The **Sun**, **moon** and the **planets** are **spheres**.

**Mars**

**Earth**

When it is sunny we see **shadows**.

# SPACE

A model of Earth is called a **globe**.

**Gravity** causes objects to fall.

We have an **atmosphere** around Earth. This means we can **breathe air**.

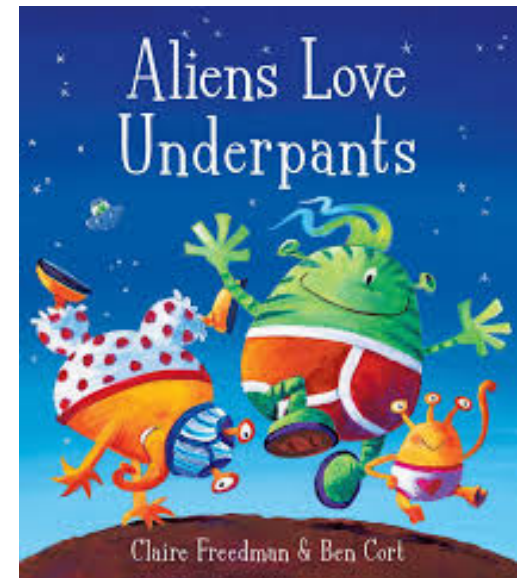

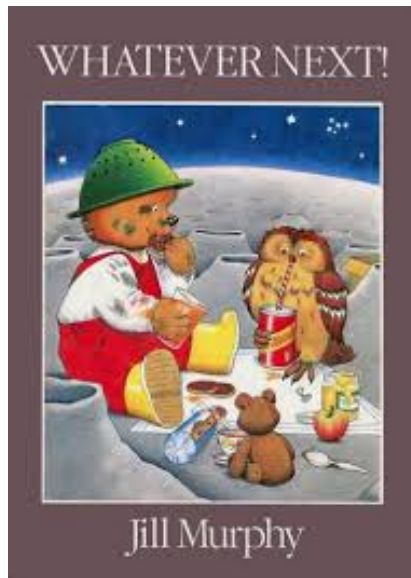

**Clouds** are in the atmosphere.

**Neil Armstrong** was the first man to walk on the moon.

The moon does not have an **Atmosphere** so we need Breathing suits on the moon.

We will be focusing on 3 stories.

There are lots of stories about SPACE you might to share with your child. Below are just a few ideas.
